

MATH (ALEKS) RESULTS GUIDE

Lane's math placement test can be taken online, or in-person at the Testing Center in building 1. Students who complete the ALEKS placement test are encouraged to spend time in the ALEKS learning modules for the opportunity to retest and improve their placement score. This is also a great way for students to review and master math skills in preparation for their next math class.

In order to register for a math class in the Algebra to Calculus pathway, you must achieve the ALEKS minimum score for the course you want to take.

The table below explains how to interpret your ALEKS score.

| Course | ALEKS Minimum Score |
|--|---------------------|
| MTH 010, Whole Numbers, Fractions, and Decimals | 0 |
| MTH 020, Math Renewal | 6 |
| MTH 060, Beginning Algebra | 14 |
| MTH 065, Elementary Algebra | 21 |
| MTH 095, Intermediate Algebra | 30 |
| MTH 111Z, Precalculus 1: Functions MTH 211, Fundamentals of Elementary Math 1 | 46 |
| STAT 243Z, Elementary Statistics 1 | 49 |
| MTH 112Z, Precalculus 2: Trigonometry MTH 241, Elementary Calculus 1 | 61 |
| MTH 231, Discrete Mathematics 1 MTH 251, Calculus 1 (Differential Calculus) | 76 |
