Purpose

The College recognizes that the student government (Associated Students of Lane Community College) and student participation in governance and leadership are a vital part of the campus community. It is the purpose of ASLCCSG to advocate for, and help with lobbying, on a variety of student topics and needs as they arise on the main LCC campus and within the State of Oregon. This policy distinguishes student government from College administration, and defines the policies and procedures to which student government must conform.

Narrative

The college recognizes that that the Associated Students of Lane Community College Student Government (ASLCCSG) functions as both the representative organization of credit bearing students at the main campus, and provides an educational leadership experience for students elected to office or hired as ASLCC Student Government staff. It shall be subject to conformance with board policies and administrative policies and procedures, and shall be a reflection of state and local government for the purpose of the educational experiences it provides.

The College recognizes that all students taking classes on the main campus and paying the student activity fee are members of the Associated Students of Lane Community College, or ASLCC. From this body the Associated Students of Lane Community College Student Government or ASLCCSG can be formed by election to be a representative body of students and to be a point contact between Lane Community College administration, governance system, the Board of Education, and the students-at-large.
