Lane Community College
Assessment Process

Over the course of the assessment process, instructors will have access to assistance and council from various teams.

1 Data Collection

In this process of providing education, artifacts (data) are collected from students. These includes assignments, projects, tests, etc.

works with

2 Assessment

This step maps artifacts and curriculum to the Core Learning Outcomes (CLOs) of the college. Two teams, APROC and the Assessment Team are available to help guide instructors through this step.

Assessment Team
This group consists of _____. They can be reached at _____.

+

3 Program Review

This step involves parsing the assessment data and artifacts and initiates exercises to improve a program. The Assessment Team also supports the Program Review Lead during this step.

APROC
(Academic Program Review Oversight Committee)
