

Anatomy and Physiology (A&P) Course Transfer Sheet from UO to LCC & OSU to LCC

UO students are required to take more credits and courses for equivalency to the LCC A&P courses so the following table is an example of how to record the grade value on the LCC nursing application. The maximum number of credits allowed for each substitution will be 4 for the application point sheet. For example, the grade for LCC BI 231 is determined by averaging the HPHY 321 and HPHY 322 grades, if one grade is higher than the other the higher-grade value is used as indicated on the table.
